

MATH LEVEL 1: GEOMETRY

Adult learners will begin to reason, problem solve, communicate, and make real life connections using geometry.

Benchmarks On exit of this level, learner is able to:	Applications Examples of how/where learners will use this skill:	I do it well enough	I want to work on it	I don't need to work on this now
Create, explore and describe geometrical shapes.	<ul style="list-style-type: none">• Use geometric terms to rename objects, such as: ball/sphere, box/cube, soup can/cylinder, ice cream cone/cone, etc.• Recognize a square, circle, rectangle, and triangle.• Use manipulatives to make various geometric shapes.			
Create and describe patterns involving geometric objects	<ul style="list-style-type: none">• Recognize repeating patterns using number, shape, and size.• Distinguish between repeating and growing patterns.• Draw the next element in simple repeating patterns.
